Dear Sir,

We have been using your refurbished and new spare parts for Helical Rotor Pumps for over 3 years now. The quality service and price policy of your company has been of great advantage to us. The hard chrome surface on your refurbished and new Helical Rotors has increased the standing time of our pumps immensely.

Being in the Food Industry, the breakdown of a critical pump is of major concern, the product cannot just sit in tanks or pipework without quality problems, your equipment has reduced this problem to a minimum.

In conclusion I have no hesitation in recommending Alpha Pumps for their quality, service and problem solving capabilities.

Yours sincerely,

E. BANASIAK
Projects/Process Engineer
